Category	Description	Credits	Contribution of Amorim Revestimentos Products	Available Points
Health and Wellbeing	Its objective is to increase the comfort, health and safety of the building users, that is, an increase in the life quality of the building, recognizing those who encourage a healthy and secure indoor and outdoor environment.	Indoor Air Quality	Since the products have reduced volatile organic compounds (VOCs) emissions and other pollutants, proven by GREENGUARD certification,	1-5*
Materials	Its objective is to reduce the impact of the construction materials throughout the project development, construction, maintenance and repair. It focuses on obtaining materials of responsible origin that have a low impact throughout their entire life cycle.	Life Cycle Impacts	Since the products have Environmental Product Declaration (EPD), they contribute to the direct obtainment of points. To get one point it is necessary to use at least 5 different products with EPD.	1*
		Designing for Durability and Resilience	Because they are resilient floors, and of high durability they contribute indirectly to obtain 1 point	1
		Material Efficiency	Because they are resilient floors, of reduced maintenance, they minimize the environmental impact of use and waste of materials, contributing indirectly to obtain 1 point.	1
